AMY! Hope you're having a nice (recuperative?) weekend!

The Park City issue heated up end of last week and Jim Martin has requested a briefing on Tuesday - I just thought you might want to know since I didn't get the impression water folks were informed. Superfund EPR is briefing C.Campbell Monday at 10 and Mike and I are going. I'm not sure if the NPDES issues will come up, but I thought just in case they ask to bring you in, I should ask about your availability, just in case. Any chance you might be able to make it if they ask?
